

BASIC CHOREOGRAPHY (Cont.)

The entire combination has the girls really jumping around...You can help break the jumping around by calling a Balance after the curlique which will break her flow and allow for an easier change of direction. You can also re-place the Walk & Dodge--Partner trade with a SPLIT CIRCULATE-BOYS RUN and end in the same exact position in a much smoother dancing pattern..

REVIEW WORKSHOP FIGURE ZOOM..... FOR MAINSTREAM DANCERS.....

ZOOM is really the equivalent of a substitute or the older call "leads rollbackbehind those two".. Both do the job however the "ZOOM" substitute is much smoother in body flow then "substitute" and the term zoom fits the metering and timing far better then the long worded "leads roll back etc".....IF YOU ARE NOT USING ZOOM YOU REALLY WILL FIND IT EASILY TAUGHT AND LEARNED AND HAS A PLACE IN MAINSTREAM DANCING...

FROM ANY DOUBLE PASS THRU OR COMPLETED DOUBLE PASS THRU SET UP THE LEAD COUPLE WILL START A PEEL OFF MOTION BUT CONTINUE ON AROUND

ZOOM (cont.)

UNTIL THEY HAVE FALLEN IN BEHIND THE TRAILING COUPLES AND END
IN THE SAME FACING DIRECTION AND PARTNER RELATIONSHIP AS WHEN STARTED
BUT WILL BE THE TRAILING COUPLE...THE INACTIVE TRAILING COUPLE
WILL STEP FORWARD INTO THE VACATED POSITIONS OF THE LEAD DANCERS
SO THE SPACE USED IS THE SAME AS WHEN THE FIGURE WAS CALLED...

WORKSHOP TIME

Last month we sent along our own idea TURN & RUN and CROSS TURN & RUN. We have continued to experiment and the dancer reaction is good. We like the fact that you can, after a little get acquainted time begin to add some directional commands such as GIRLS "TURN" BOYS RUN or BOYS "CROSS TURN" GIRLS RUN--- The figure is easily taught and used especially if scoot back is a standard call.. A few zeros and equivalents using TURN or CROSS TURN & RUN.

BOX FORMATION ZERO. (normal girl boy positioning)

STAR THRU--PASS THRU--U TURN BACK--
 CURLIQUE--TURN & RUN--(girls turn boys run)
 BEND THE LINE--SLIDE THRU--zero.

NORMAL BOX ends as if swing thru boys run was called.

STAR THRU--RIGHT & LEFT THRU--
 LADIES CHAIN--ROLLAWAY 1/2 SASHAY.
 CURLIQUE--TURN & RUN (girls turn-boys run) Now in two face line.

NORMAL BOX EQUAL TO A SWING THRU.

SLIDE THRU--CURLIQUE--
 CROSS TURN & RUN (boys cross turn-girls run) Now in swing thru wave..

We are not featuring any workshop calls this month but will report the two following for your own experimentation...

WEAVE TO A WAVE From several callers.

Several callers suggested this one, it comes as an outgrowth of last months Turn & Weave. The thought being that the turn thru was not really a necessary part of the call....FROM ANY BOX FORMATION PASS THRU--DANCERS FACING OUT TURN 1/4 right. THE CENTER DANCERS MOVE TO PASS LEFT SHOULDERS BUT CATCH LEFT FOREARMS AND TURN LEFT 1/4 to END IN A WAVE...Kind of a weave into a dixie style but ending in a right hand wave. Our dancers felt it was crowded and close quartered for the center dancers to dance their part smoothly. The centers had to veer sharply to the left in order to catch lefts. In general it was just another maneuver.....

One example

BOX 1-4--CURLIQUE--SCOOT BACK--
 BOYS FOLD--GIRLS SQUARE THRU 3/4--
 WEAVE TO A WAVE --BOYS RUN--
 BEND THE LINE--1/2 SQUARE THRU--
 TRADE BY--LEFT ALLE.....Box 1-4.

PASS & WHEEL-Dave Platt

From any eight chain thru box PASS THRU--THE COUPLE FACING OUT WILL WHEEL TO THE LEFT AND FACE IN, in kind of a first couple left action...THE CENTER COUPLES WILL PASS THRU TO END IN A TWO FACE LINE. The idea is smooth but the two two face lines do not end up back to back and the set is way off center. Even the follow up calls do not correct the set up. See what you think, perhaps someone can work out a way for the action to end more "correctly..."

One example

Box 1-4--PASS & WHEEL--BOYS TRADE--
 BEND THE LINE--RIGHT & LEFT THRU
 STAR THRU--DIVE THRU--PASS THRU--LEFT ALLE.

GETTING AQUAINTED WITH THE CALL "ROLL" .

The term ROLL really has a place in the advanced or experienced dancer program. It simply means that when the term ROLL is tacked onto another basic call that upon completion of the basic movement the dancers will turn $1/4$ individually in the direction your body is flowing or moving... We could say that a PARTNER TRADE & ROLL would end up the same as a PARTNER TRADE & $1/4$ MORE... However the real value in the call is that when the basic movement is a couples figure then the term roll still means for the dancers to turn individually. For example in a right left roll would mean to complete the right & left thru then allow your bodies to turn on the spot individually $1/4$ to the left as that is the direction the body is flowing... The dancers must have a feel or understanding of BODY FLOW so he can quite naturally allow himself to turn on a spot $1/4$ more. The idea is very smooth, allows an interesting variety of position changes and yet keeps the figures quite basic.. IF YOUR ADVANCED GROUPS ARE NOT AQUAINTED WITH THE MANY POSSIBILITIES INVOLVED THEN START SLOW AND EASY UNTIL YOU CAN EXTEND ITS USAGE TO JUST ABOUT ANY MOVEMENT.....

VIEWPOINT: It was an honor to be part of the CALLERS SEMINAR at the National Convention in San Antonio..It was especially nice meeting so many subscribers for the first time...The convention was a huge success as I really believe the very best national we have ever attended. The facility was really great and the city of San Antonio was really something else, However our HATS ARE OFF to the convention chairman and his committees as they did a truly outstanding job...

There was a lot of talk about CALLER LAB and especially about the efforts to help callers and dancers who are MAINSTREAM DANCERS AND CALLERS select suitable workshop figures.. I shall discuss this at length next month and I hope that all callers and leaders will take the time to evaluate our project and talk with the dancers about it and get their reactions.....

BASIC CHOREOGRAPHY

This month I would like to explore a little the figure CROSS RUN.... Cross run is really a basic call and as part of the RUN FAMILY it has a useful place in mainstream dancing. The figure can be used from ocean waves, two face lines and even lines of four. CROSS RUN like run is directed to ends-centers- or boys or girls and for a brief comparison between run & CROSS RUN the description is somewhat directional. In a basic centers run, the centers run around the closest end and become new ends, in a centers cross run they run to the far end of the line to become the new ends...Like in runs the inactive dancers should slide over to fill the vacated adjacent spot. An ends run has you run around the closest center and become a new center, in endscross run they run to the farthest center position to become new centers... AN INTERESTING THING ABOUT CROSS RUNS IS THAT IF STARTED FROM A WAVE YOU WILL END BACK IN A WAVE, THE SAME FOR TWO FACE LINES.....MY OPINION IS THAT CENTERS CROSS RUN LENDS ITSELF TO THE SMOOTHEST FLOW AND GIVES THE MOST OPPORTUNITY FOR FLOWING FOLLOW UP CALLS.....

WORKSHOP OF EXPERIMENTAL IDEAS.

Several ideas this month were worthy of some exploration, however NONE in my opinion will have any lasting value.

GRAND PARADE--A Grand square variation which is cute and easily danced and could remain popular for a few months....
 HEADS STEP FORWARD TO FORM A WAVE--TURN RIGHT 1/2 AND THE BOYS ONLY
 TURN LEFT 3/4--THE SIDE LADIES NOW STEP FORWARD TO BECOME THE PARTNER
 OF THE HEAD MEN--WHILE THE SIDE MEN COURTESY TURN THE HEAD LADIES--
 ALL NOW PROMONADE 1/2 WAY AROUND THE SET FACE BACK TO THE CENTER
 AND REPEAT ONCE MORE FOR THE HEADS THEN TWICE FOR THE SIDES, FOUR
 TIMES IS ZERO...YOU CAN DIRECT WHO STEPS INTO THE CENTER BY SAYING
 "HEADS" GRAND PARADE, AND YOU CAN ALTERNATE HEADS, SIDES OR DO
 HEADS TWICE, SIDES TWICE.....FUN FIGURE FOR EASY LEVEL DANCING....

PEEL & SLIDE--Bill Harrison.

From the basic "Z" formation (SWING THRU-GIRLS FOLD) PEEL & SLIDE is added to the Peel Off, and Peel the Top etc type figures... THE LEAD PERSON PEEFS OFF WHILE THE DANCERS WHO FOLDED WILL SLIDE FACE TO FACE AND END IN A TWO FACE LINE.....AFTER WATCHING THE FIGURE DANCE I FELT IT HAD A STOP-START KIND OF FEEL DUE TO THE FOLD STAND FOR A MOMENT THEN SLIDE.....SO, I started clipping the time just a bit so when I called GIRLS FOLD--PEEL & SLIDE the girls folding action and her slide action would be continuous... It seemed to dance a bit smoother that way...Not a bad figure but I don't see it becoming as popular as Peel the Top.....

This month lets play ZOOM from the odd spots that IF YOU REALLY UNDERSTAND ZOOM can really add to the over all value of the figure and alot of FUN dancing it. I SUGGEST YOU CALL A FEW BASIC ZOOMS AND REVIEW THE RULES FOR EACH DANCER, THE LEADER AND TRAILER THEN TRY THESE BUT WHEN NECESSARY RE-EXPLAIN THE RULES...HAVE FUN.

REVIEW EXPERIMENTAL FIGURE--RECYCLE--Lee Kopman.

We mentioned earlier in the year that because the figure RECYCLE has several different positions to react with different actions all under the same command name that we felt it best not featured..In the past five months ONE recycle position has become popular workshop material and really does have good dancing value...THE RECYCLE FROM THE OCEAN WAVE is the position we shall review.....

TEACHING RECYCLE FROM THE OCEAN WAVE..

START IN A BOX 1-4--Tell the dancers to see where they are standing now, then have the two boys exchange places and tell the dancers that when they have completed the figure recycle that the boys will have exchanged places and the girls will be back in the same spot they are now in.... Now step into your ocean wave..On the call RECYCLE the girls will fold behind the adjacent end dancer and follow him in the single file 1/2 circle to end facing right and in the desired box set up.... THE FIGURE EQUALS A FLUTTER WHEEL IN POSITIONING...
NOTE: SOME AREAS ARE ELIMINATING THE GIRLS FOLD PORTION OF THE TEACH AND HAVE THE BOYS START WALKING TOWARD THERE END POSITION AND THE GIRLS WILL TURN AND FOLLOW ALONG...OUR DANCERS FOUND THIS WAY THE MOST ACCEPTABLE.....

ADVANCED WORKSHOP IDEAS. For the Challenge Groups.

CAST A SHADOW FROM COLUMNS--- Cast a Shadow has really become the most versatile figure in advanced dancing in a long while...It can be called from a variety of positions and NOW FROM THE COLUMNS it adds another dimension to the call...TRY IT I THINK YOU WILL LIKE IT!!!!

BASIC STARTING SET UP IS A 1P-2P LINE AND DO A CURLIQUE TO SET UP THE COLUMN....NOTE THAT THERE IS A GIRL IN THE LEAD IN EACH COLUMN. THE LEAD GIRL WILL PEEL BACK AND WALK PAST THE MAN BEHIND HER TO CATCH THE OTHER GIRL WITH LEFT HANDS FOR THE 3/4 TURN..THE BOY WHO IS NOW IN THE LEAD WILL CLOVERLEAF TO FOLLOW THE LEAD GIRL AND STEP INBETWEEN THE TWO GIRLS WHO HAVE COMPLETED THE 3/4 TURN...THE LAST BOY IN EACH COLUMN WILL MOVE AHEAD TO CATCH RIGHT HANDS FOR A 1/4 TURN THEN STEP AHEAD TO EXTEND LEFT HANDS TO THE GIRL HE FACES...ENDS IN A LEFT HAND WAVE WITH THE BOYS IN THE CENTER.... THE FORWARD ACTION OF THE COLUMN AND THE ENTIRE ACTION OF THE FIGURE LENDS TO REAL GOOD TIMING AND SMOOTH BUT COMPLICATED ACTION...REALLY GOOD WORKSHOP ACTION BASED ON AN ACCEPTED WORKSHOP FIGURE.... The figure is easily "seen" by experienced dancers and should provide for some interesting workshop time.....

INVERT THE COLUMN--ED FOOTE.

An interesting figure with several variations that was well accepted by our challenge group.. It is not really strictly a challenge type call and just could be worth your investigation....FROM NORMAL COLUMNS (1P-2P Curlique) THE LEAD DANCER PEELS BACK ALL FOLLOW SINGLE FILE UNTIL THE COLUMNS ARE RE-FORMED BUT WITH LEFT HANDS ADJACENT.... THE VARIATIONS ARE INVERT THE COLUMN 1/4--1/2--& 3/4. We found the invert the column 1/2 which sets up two parallel ocean waves to be quite nice.....

COORDINATE--DANCING THE BASICS-----	39-40

VIEWPOINT: Several figures have been published lately that are combinations of two or more directional calls given one name.. Lock the Top, Syncopate and Contour the Line to name a few.. These "basics" can just as easily and more effectively be called DIRECTIONALLY.. WHY Lock the Top when you can call Lock It and Spin The Top?? You end up having to breakdown the call as you deliver it anyway....OF WHAT REAL EXPERIMENTAL VALUE is there?? I say NONE., and for that reason I will always stand up against this type of experimental figures.....

THE CALLER LAB project regarding experimental basics is off the ground..The Committee made up of 20 Callers and callers associations have made there first selections which will be published in SEPTEMBER. I WOULD LIKE FOR ALL CALLERS AND DANCERS TO FULLY UNDERSTAND THE PURPOSE OF THE SELECTION IS ONLY TO PROVIDE THE "MAINSTREAM" CALLER AND DANCER WITH THE OPPORTUNITY TO LEARN SELECTED EXPERIMENTAL FIGURES THAT WILL KEEP THEM CURRENT WITH WHAT IT TAKES TO ENJOY A CLUB DANCE BUT NOT HAVE TO SPEND 1/2 THE NIGHT WORKSHOPPING.. THE SELECTED FIGURES ARE ONLY A GUIDE AND IF YOUR GROUPS DESIRE MORE , BY ALL MEANS PROVIDE FOR IT..IF THE CLUBS DON'T WANT MUCH EXPERIMENTAL STUFF THEN THE TWO FIGURES EVERY THREE MONTHS SHOULD LEAVE AMPLE TIME FOR THOROUGH FAMILIARIZATION.....

BASIC CHOREOGRAPHY

The figure CURLIQUE has become a "mainstream" basic. It is used a great deal to set up columns from 1P-2P lines and to set ocean waves. More often then not it is used in combination with walk & dodge, scoot back and split circulate.. I would like to pass along some equivalents to set up a "Curlique" position and discuss which "curlique" is best selected for the follow up call.....

EQUIVALENTS TO A CURLIQUE.

1. SWING THRU--CENTERS TRADE--CAST OFF 3/4.
2. FROM PARALLEL WAVES--SCOOT BACK--CAST OFF 3/4
3. STAR THRU--GIRLS TURN BACK.
4. STAR THRU--GIRLS TURN THRU.
5. SQUARE THRU FOUR--BOYS RUN RIGHT.

When your next call after a CURLIQUE is a walk & dodge or split circulate consider the body flow of the girls and help smooth out their action, (see June 1974) by the selection of one of the equivalents to CURLIQUE that have the girls flowing or turning to the right as in examples 1,2 and 4.. This helps them fit smoothly into the next call and helps keep the body flow to the right..For the column set ups that call for

BASIC CHOREOGRAPHY Cont.

a peel or turn away action with the girls leading the way then the basic CURLIQUE is best.. For following calls such as swing thru or spin the top type action all will flow BUT THERE CAN BE TOO MUCH FLOW.. For example, using swing thru--boys trade--cast off 3/4 as your curlique and then follow with a swing thru is BAD CHOREOGRAPHY even though it flows.. Too much turning by the right with the cast 3/4 being followed by a turn right 1/2 as you start your swing thru..... Consider these little things they really make alot of difference!!!!

REVIEW FIGURE ROLL RIGHT OR LEFT TO AN OCEAN WAVE.

An easily learned figure set up from a number of positions, from the trade by position, double pass thru and completed double pass thru, and from columns.. The basic direction is for all dancers but can be directed to boys or girls or specific couples. THE BASIC IDEA IS THAT THE DANCERS WILL MAKE AN EXACT ABOUT FACE TURNING TO THE RIGHT AS HE TURNS AND STEPS INTO AN OCEAN WAVE. It can be called U turn back do sa doe to a wave however the FLOWING RIGHT ABOUT FACE TURN AND THE FITTING INTO AN OCEAN WAVE IS VERY SMOOTH AND EASILY TAUGHT....

WORKSHOP TIME---1/2 TAG TRADE AND ANYTHING-- Ron Schneider

Back in June in VIEWPOINT I discussed 1/2 TAG TRADE & ROLL and mentioned it really is a 3 part directional call, very dancable and gaining in popularity.. A BIG BOOST to its dance life comes from RON SCHNEIDER and his idea to expand upon the variables after the 1/2 tag and trade are completed, with calls such as scoot back or split circulate or any possible move... The variations make it a good versatile experimental combination of directional calls that when properly delivered keep the figures rolling and dance as if given with one command..... FROM ANY LINE THE DANCERS WILL 1/2 TAG THE LINE, THEN TURN 1/2 BY THE RIGHT WITH THE ADJACENT DANCER AND THEN PICK UP THE NEXT CALL..... NOTE: A 1/2 tag the line can establish two parallel waves but not unless the caller establishes the waves or uses a wave figure next.. A 1/2 TAG LEAVES YOU SHOULDER TO SHOULDER WITH NO HANDS JOINED FOR THE POSSIBLE FACING TURNS APPLIED TO THE TAG FAMILY, SO WHEN A TRADE IS USED THE TWO DANCERS WITH RIGHT HANDS DO THE TRADE OR TURN RIGHT 1/2..

Ron's idea has good dancing value for workshop groups, and if you have been using 1/2 tag trade & roll then give it a try without any warning.. Call a few 1/2 tag trade & roll figures then slip in one with a run or scoot back, it should raise a few thoughts.....

INVERT THE COLUMN.. More experimentation.

39-40

Last month we workshopped Ed Foote's idea and its variation to invert the column 1/2..The workshop dancers like the idea and we would like to make the following observations..First if using invert the column 1/2 it is best to SAY 1/2 INVERT THE COLUMN as the 1/2 is the key command and it will time better..Also we feel that with a LEFT HAND WAVE as the ending position of the 1/2 invert the column that it would be more desirable to end in a RIGHT HAND WAVE which means our starting column has to be a left hand column. To set up left hand columns can be done with a left curlique but that is kind of far out so we tried some other ways to set up left hand columns.

MORE COORDINATE--- See page 18-74 for basic introduction.

This figure is really a sleeper..If you have not used it with your workshops give it a second look... Also I have included some figures that will end with boys as centers and girls as ends of the two face line.....REVIEW OF THE BASIC COORDINATE ACTION...FROM COLUMNS SET UP BY DOING A CURLIQUE FROM 1P-2P LINES COORDINATE IS DANCED.. THE COLUMNS CIRCULATE ONCE AND 1/2 LEAVING TWO DANCERS OUT ON THE ENDS ALONE, WITH THREE PAIRS OF DANCERS STILL IN THE COLUMN SET UP..THE THREE PAIRS TRADE OR TURN 1/2 AND THE CENTER PAIR OF DANCERS IN THE COLUMN STEP APART AND FORWARD TO BECOME THE ENDA OF A TWO FACE LINE. THE LONESOME TWO DANCERS AT THE ENDS OF EACH SET UP WILL WALK AHEAD TO BECOME THE OTHER END OF THE FORMING TWO FACE LINE....

VIEWPOINT. By now I'm sure you have seen the information regarding the Caller Lab selection of WALK & DODGE and RECYCLE from ocean waves as theselected workshop figures for the quarter..I FEEL THAT IF THERE IS GOING TO REALLY BE SOME "PULLING TOGETHER" TO MAKE IT POSSIBLE FOR MAINSTREAM DANCERS TO VISIT CLUBS ACROSS THE COUNTRY THEN ITIS UP TO US, THE CALLERS, TO WORK TOWARD USING THE SELECTED FIGURES WITH ENTHUSIAM AND EXPANDING THEIR USAGE TO MORE THEN THE BASIC TEACHING POSITION... I have heard some talk that Caller Lab is trying to tell us what to call.....THE ENTIRE PROJECT IS ONLY TO HELP CALLERS AND DANCER RUN CLUBS THAT DANCE "MAINSTREAM" IN THEIR SELECTION OF WORKSHOP FIGURES SO AS TO LESSEN THECONFUSION OF TWO MANY NEW FIGURES....I HOPE THAT ALL CALLERS WILL APPROACH THE SITUATION WITH AN OPEN MIND AND WORK TOWARD THE GROWTH OF SQUARE DANCING AND SEE THAT THE DANCERS ARE GIVEN NEW MATERIAL BUT NOT IN SUCH LARGE AMOUNTS THAT WE CONFUSE THE DANCERS AND MAKE IT DIFFICULT FOR FOLKS WHO MISS A FEW DANCES TO RETURN.. LETS PULL TOGETHER RATHER THEN CUT DOWN A SINCERE EFFORT TO SOLVE AN AGE OLD PROBLEM.....

BASIC CHOREOGRAPHY

With classes getting under way I would like to spend this month with a teaching guide for the presentation of WHEEL & DEEL to your class.. Often the problems of learning WHEEL & DEEL are complicated by the dancer having to learn DOUBLE PASS THRU and 1st COUPLE LEFT NEXT ONE RIGHT..In reality the dancers are learning three figures not one, and this is alot to expect.. I suggest that prior to the night you teach WHEEL & DEEL that you have aquainted the class with the double pass thru and 1st couple left next right so when it is time to teach WHEEL &DEEL IT WILL STAND ALONE....

I have found it helpful to demonstrate wheel and deel so the class can see a "picture" of what the call looks like.. I also find it helpful to set up the lines of four ALL FACING THE BACK WALL SO WHEN THEYPRACTICE AND YOU GIVE THE EXPLANATION ALL WILL REACT THE SAME WAY. I FIND IT HELPFUL TO EXPLAIN THE FIGURE AS TWO CLOSING DOORS WITH THE RIGHT DOOR CLOSING FIRST AND THE LEFT DOOR SECOND. TEACHING THAT THE HINGES ON THE SWINGING DOORS ARE THE CENTERS OF THE LINE WHILE THE END PEOPLE MOVE FORWARD... IT ALSO HELPS ID THE DANCERS ARE AQUAINTED WITH WHEEL AROUND SO YOU CAN SHOW THE SIMILARITY OF A "WHEEL" IN WHEEL & DEEL TO WHEEL AROUND.. ITS ALSO IMPORTANT TO HAVE THE COUPLES TAKE TURNS BEING RIGHT AND LEFT HAND COUPLES.....

I also feel that it is best to keep the wheel & deel performed from normal couples for several weeks befor introducing centers in cast off 3/4 and setting up boy-boy girl-girl lines for wheel & deels...

COMPLETE YOUR (A) TAG .----Ron Schneider.

42-74

I see Rons' idea as a worthwhile addition to the TAG FAMILY..The idea stems from the popular 1/2 tag trade and figures which are popular workshop figures..Rons' thought is if you start the tag action with a 1/2 tag then interrupt it with a trade then come back to the tag idea that you could easily finish or COMPLETE YOUR TAG by moving straight thru to end as in any tag with the completed double pass thru formation..Open also are the optional facing turns at the completion of the tag figure... FOR EXAMPLE YOU COULD 1/2 TAG--TRADE--COMPLETE YOUR TAG, or 1/2 TAG-SWING THRU--COMPLETE YOUR TAG..You can even COMPLETE A TAG without starting one when in parallel ocean waves...The name is very descriptive and the action once understood by the dancers adds a useful dimension to the dancing action available from existing formations.....

EXPERIMENTAL WORKSHOPTRANSFER THE COLUMN - Lee Kopman.

The experimentation with COLUMN figures continues and TRANSFER THE COLUMN may just be one of the better ideas..The figure is busy but all forward flowing and gives the dancer a feeling of "doing something" as they move thru the action.. The figure starts from columns set up by doing a curlique from 1P-2P lines and ends up in two parallel ocean waves....

THE TEACH: 1P-2P CURLIQUE TO SET UP COLUMNS...HAVE THE LEAD GIRL IN EACH COLUMN BE RECOGNIZED. NEXT HAVE THE MAN RIGHT BEHIND THE LEAD GIRL BE RECOGNIZED..THESE TWO SINGLE FILE WILL WALK FORWARD AROUND THE ADJACENT COLUMN AND WALK TOWARD THE FOOT OF THAT COLUMN, AT THE 1/2 WAY POINT THEY WILL STOP AND FACE INTO THE CENTER OF THE SET. THIS SHOULD LEAVE THEM 1/2 SASHAYED AT THIS POINT.. THE REMAINING DANCERS IN WHAT IS LEFT OF THEIR COLUMNS WILL PROGRESS FORWARD AND AS IF DOING A HALF TAG THE LINE : END SHOULDER TO SHOULDER, THEY NOW CAST OR TURN RIGHT 3/4 AND STEP THRU TO EXTEND RIGHT HANDS TO THE AWAITING DANCERS TO FORM A RIGHT HAND WAVE.... CAUTION SPOTS. THE COUPLES WALKING AROUND THE OUTSIDE MUST NOT CROWD THE CENTER ACTION AND THEY MUST MOVE TO THE CENTER OF THE SET BEFORE THEY FACE IN OR THE RIGHT HAND WAVES ARE NOT EASILY ESTABLISHED. THE CENTER DANCERS MAY TEND TO HURRY THE 3/4 CAST SO CAUTION THEM NOT TO RUSH, ALSO BECAUSE THEY TURN RIGHT IN THE CAST OFF THEY MAY WISH TO EXTEND LEFT HANDS TO THE OUTSIDE TWO... THE FIGURE IS EASILY TAUGHT TO EXPERIENCED DANCERS AT ALL LEVELS BUT MUST BE FULLY UNDERSTOOD, SO TEACH SLOW AND ESTABLISH THE TWO PARTS WELL AND YOUR WORKSHOPPERS SHOULD ENJOY TRANSFER THE COLUMN.

SPLIT TRANSFER THE COLUMN - Lee Kopman

A split version of transfer the column, really done "single" fashion and for the advanced workshop dancer a better call than transfer the column... SPLIT TRANSFER THE COLUMN ALLOWS YOU TO MOVE FROM WAVES TO COLUMN OR FROM COLUMNS TO WAVES. The figure dances smoothly and in four beats and really is the better of the two BUT split figures for basic dancers are a little far out...

THE TEACH:

BOX 1-4 CURLIQUE (Check split circulate boxes) GIRLS ARE FACING OUT AND AS THE LEADS THEY WILL WALK RIGHT AROUND THE ADJACENT BOY AND MOVE AHEAD TO THE CENTER OF THE SET AND FACE RIGHT..THE BOYS MOVE FORWARD MEET WITH RIGHTS AND CAST OR TURN RIGHT 3/4, STEP AHEAD TO EXTEND RIGHT HANDS TO THE FACING GIRL TO ESTABLISH A COLUMN.. YOU CAN OF COURSE ESTABLISH THE SPLIT BOXES FROM COLUMNS AND THE SQUARE WILL RETURN TO WAVES..

CAUTION: It is not a good idea to mix SPLIT TRANSFER AND TRANSFER THE COLUMN IN THE FIRST NIGHT OF EXPERIMENTATION.....

VIEWPOINT: I have received a few comments regarding the teaching and dancing of RECYCLE. All were in agreement with my statements in Viewpoint last month. How do you feel?? The majority of experimental ideas this month were again very poor. I am reporting only one new movement ROLL & FOLLOW, and it will be of use only to the callers who are working with Triple Trades, couples Hinge type of action as the end result is a long line made up of two two face lines end to end.. LOOKS LIKE THE TERM MAINSTREAM FINALLY HAS A DEFINATION...The 75 plus 10 seems to be the best indicator of Mainstream club level dancing, and I would like to add that Mainstream should be the level for most dancers with 2 years of dancing experience. If your clubs are not using the plus 10 figures then unless there are unusual circumstances you should aim at introducing them to your dancers over the present dancing year...

BASIC CHOREOGRAPHY:

This month I would like to attack TURN THRU. A very important basic that is often poorly danced partly because of how we use it..Often a TURN THRU to a Left Alle. is our most used position and that becomes another arm turn, but when dancers are called upon to TURN THRU and end up in open spots they will cling to the turn thru and remain in an ocean wave. Another problem is if they do step thru they are often influenced by the right arm turn motion when they should be stepping straight ahead after the turn action ...CALL A FEW TURN THRUS and observe,,If necessary drill a little and lets "clean up" some of the Turn Thru habits that have been around to long..

Note.. When I mention that a figure ends in a Box 1-4 or 1P-2P line and give you a left alle, you really don't HAVE TO call an Allemande but can move into additional dance routines from the known position...

52-74

An easily learned figure that looks at the start a little like ~~east~~ a shadow but not as complicated and worthy of your time... THE BASIC POSITION IS A TWO FACE LINE AND FOR TEACHING I SUGGEST A COUNTER CLOCKWISE CIRCULATION, SET UP FROM A BOX 1-4 WAVE AND HAVING THE BOYS RUN... The couples facing in, will 1/2 circulate. The couples facing out will have the Girl roll back and take a right hand hold with the trailing girl, while the man facing out will follow his girl and end beside her as the end of the two face lines formed end to end.. From this formation here are a few possibilities for follow up calls...

1. Wheel & Deel back to facing lines.
2. Triple Trade.
3. Couples Hinge.
4. Girls Trade.
5. Girls cast 3/4--to Diamond formation..
6. Boys Run to Ocean Waves..

The figure only takes about two beats , and the only poorly timed spot is the boy facing out takes 3 beats to get into position.. Once the figure is understood this is not a problem as the following calls give him time to keep moving into the next command...

Note. When using Split Transfer I find it helpful to let the dancers know that I will cue who turns 3/4.. I also find myself saying SPLIT TRANSFER and leaving off the Column so I can add Girls turn 3/4 etc...It takes a little time for the dancers to react to instant recognition of their position so a little help is often appreciated.....

THE CALLERS CLINIC:

Planning your program can be the real key to a successful club program.. There are a number of thoughts I would like to mention.

1. PLANNING YOUR YEARLY PROGRAM.

Set some realistic goals for your club in areas they need improvement. The areas could be listed in order of importance and each month you place emphasis on that phase.. Example could be better dancer reaction to 1/2 sashayed square thru..

2. MONTHLY PROGRAM.

For each dance during the month you select a tip to theme around your selected area of improvement and really go at it...

3. PLANNING YOUR DANCE.

Your plan for the dance should be kept on file with notes you made during the dance that let you know what went well and what needed improvement. Your plan should be worked out tip by tip giving you reminders of what basics you wish to include in that tip. Special set ups or figures can be written for last minute reference. Your plan allows you to see what you worked last week and how you can build upon what you did at the last dance....

4. TIP BY TIP PLANNING.

Each tip should be built around figures that in combination make for a nice dance. Build for the dancers success by starting out using one figure in combination with very standard basics, then another Theme basic used in combination with standard basics, then use two theme figures in the same dance routine and keep building from there.. Each Tip should have its high point and then back down a little as you call the last two or three figures remembering that the LAST DANCE ROUTINE OF THE TIP YOU SHOULD STRIVE FOR 100% SUCCESS BY THE DANCERS....

Your plans should be flexible and you must be ready to change when necessary but plan your yearly program for each night you call and then break down the monthly goals and plan your evenings dance so you can keep an ever changing program in front of the dancers and your over all calling will show improvement.....

RENEWAL TIME FOR THE NOTES IS JANUARY, WHICH IS JUST A MONTH AWAY.

The December issue will be the last for 1974 and WE ARE KEEPING THE PRICE

IN 1975 THE SAME \$12.00 PER YEAR. (Thanks to planning ahead on the paper.)

Dancing the Basic 75 Plus 10 & Plus 25..	60

VIEWPOINT: 1974 will not set any records for great new figures but a few VERY GOOD strides were taken during the year. First the Caller Lab Experimental Basics Committee, should provide some leadership into just what figures have mainstream workshop value.. Also the establishing of just what "Mainstream" figures really are has been a big step toward realistic goals.. I feel that 1975 should be a great year for all interested in maintaining GOOD DANCING as the major goal of Square Dancing thru the efforts of the Caller Lab Convention to establish realistic goals for the good of all Square Dancers and Callers... As you all should know by now, Coordinate was the Caller Lab experimental figure selection.. There have been quite a few lines in our notes over the past year devoted to Coordinate.. I feel it is a very worthwhile workshop figure that if taught well should provide some interesting "frosting" to the Mainstream Dance picture.. Some callers have expressed the opinion that there is still no slowdown in new ideas and many callers are still "pushing" the experimental ideas at open dances... All I can say is that we have had the problem a long time and a few short months will not be time enough to change old habits... Hopefully all callers are using the Caller Lab selections as the feature workshop figures.. This in itself is a big step forward... Now if the CALLERS WILL ONLY EXPEND THE SAME AMOUNT OF ENERGY BEING CREATIVE WITH THE FIGURES AS THEY ARE SPENDING USING NEW BASICS OF LITTLE VALUE WE WILL HAVE IT MADE.... TIME WILL TELL...

BASIC CHOREOGRAPHY ...

Getting the best out of SCOOT BACK is our Basic Choreo. Theme this month.. SCOOT BACK has reached Mainstream usage but unless we choreograph Scoot Back well, it breaks one of the fundamental rules for a calls survival, that being the use of the same hand twice in a row... From standard Right Hand Waves, Scoot Back calls for the dancer facing in to do a Right Turn thru in the center and then return to a Right hand wave... This compounded by often using Curlique, a right hand figure, first then the Scoot Back we really give the RIGHT HAND a Workout.. To find out if your dance creates this situation try DANCING TO A TAPE OF YOUR CALLING TO FIND OUT... Please Don't Get me Wrong!!! I like Scoot Back and use it a great deal HOWEVER YOU CAN ELIMINATE THE SAME HAND TWICE OR THREE TIMES IN A ROW by simple usage of your basics. All it takes first is for the dancers to understand exactly how to dance a Scoot Back and be able to move into and out of the Scoot Back without establishing and holding hands

in the wave. GOOD TIMING on the part of the Caller is also very important..

Lets Begin with some simple combinations that will start to eliminate the same hand twice or three times and build into some combinations that if properly timed will not use any hand twice..REMEMBER GOOD TIMING IS THE REAL KEY...

BOX 1-4 Wave--SCOOT BACK--BOYS RUN
BEND THE LINE--SQUARE THRU 3/4--LEFT ALLE.

BOX 1-4 Wave--SCOOT BACK--BOYS TRADE
BOYS RUN--WHEEL & DEEL...Zero to Box 1-4.

BOX 1-4 SWING THRU--BOYS TRADE--SCOOT BACK---Zero to Box1-4 Wave.

BOX 1-4 SWING THRU--BOYS TRADE--SCOOT BACK-
GIRLS TRADE--SWING THRU--BOYS RUN
BEND THE LINE--SLIDE THRU..Zero to Box 1-4.

Good timing will eliminate any feeling of using the same hand twice in a row, You must deliver the command so that the next position is not yet locked into place by the hands held but so that the next position is recognizable by the dancer for a Scoot Back action, or for following basics out of the scoot Back.. FOR EXAMPLE Number four figure above..The SCOOT BACK is called as the boys start their Trade so the Scoot Back is in action without the wave actually re-formed.. The Girls trade eliminates the second right hand in a row as the trade takes place as the Scoot Back is about completed but not yet locked into place... YOU CAN CREATE MANY INTERESTING COMBINATIONS THAT DANCE VERY WELL AND NOT HAVE THE SAME HAND FEELING TWICE OR THREE TIMES IN A ROW... Last month on Page 52 in The 75 Plus 10 Figures are three excellent examples of Scoot Back and Circulate figures...

MAINSTREAM WORKSHOP

TRANSFER THE COLUMN still appears to be a very popular experimental W/S Figure. We have in past months explored TRANSFER THE COLUMN, However I would like very much to share a few helpful observations.. YOU CAN EASILY MAKE TRANSFER THE COLUMN A ZERO FIGURE OR HAVE IT EQUAL A RIGHT & LEFT THRU... From normal Lines such as a 1P-2P Line if you set up the column with a Curlique, Call a TRANSFER THE COLUMN, then have centers trade and boys run you will be back in a 1P-2P Line, or used that combination to equal Zero... From the same set up if you complete the Transfer the Column and call Swing Thru and Boys Run you will have the same set up as having done a right & Left thru from your 1P-2P Line...

Basic Examples.

1P-2P CURLIQUE--TRANSFER THE COLUMN--
CENTERS TRADE--BOYS RUN---Zero 1P-2P

1P-2P CURLIQUE--TRANSFER THE COLUMN
SWING THRU--BOYS RUN--CROSSTAIL--LEFT ALLE..

To EXPAND Lets Say You Are In A Box 1-4 and Call A Star thru..This Sets Up a 1C-2C Line from which we should recognize several possibilities..#1. That from the 1C-2C Line You Can STAR THRU--DIVE THRU--SQUARE THRU 3/4--LEFT ALLE. #2. That from a 1C-2C Line you can Right & Left Thru and then Star thru and be back in a Box 1-4.. Armed with this knowledge lets apply our understanding of the two Transfer The Column figures...From the 1C-2C line set up by doing a slide thru from the box 1-4 we can call a Curlique--Transfer the Column and select our get out to be a Zero or The Right & Left thru Equivalent...Lets Say we use the CENTERS TRADE--BOYS RUN get out..Then we are back in a 1C-2C line and can get out by calling the Star Thru--Dive Thru--Square Thru 3/4 Left Alle...., Next Time we set it up we could use the SWING THRU--BOYS RUN get out which is a right & left thru so all we need is a Star Thru and we can Left Alle. in a Box 1-4 or continue on from this known position.... WITH THIS KNOWLEDGE YOU SHOULD BE ABLE TO APPLY IT TO MANY SET UPS AND KEEP THE ACTION MOVING AND CREATIVE.....

We have had many requests to express our Viewpoint on what Figures are Plus 10 and What Figures would make up the Plus 25..So here goes..

PLUS 10 MIANSTREAM BASICS

1. Flutter Wheel
2. Sweep 1/4
3. Curlique
4. Scoot Back
5. Fan The Top
6. Walk & Dodge
7. Spin Chain The Gears
8. Partner Trade
9. Zoom
10. Circle To a Two Face Line

The Following I Feel are now part of
the Mainstream Dance Picture..
Turn & Left Thru
Re Cycle
Co-Ordinate.

Additional 15 That Make up the PLUS 25

1. Peel The Top
2. Couples Hinge
3. Triple Trade
4. Follow Your Neighbor (and spread)
5. Diamond Circulate
6. Flip The Diamond
7. Trade The Wave.
8. 1/2 Tag Trade & Anything
9. Pass The Ocean
10. Remake The Thar
11. Lock It
12. Relay The Deucey
13. Motivate
14. Split Circulate
15. Partner Hinge or Hinge.

To make the List completely understood let me add that I place the following Plateaus this way...BASIC 75--Beginners Intermediate. This level is what should be well covered in our Basic Beginners program. The Dancers need to Dance at This level for the balance of the year... The PLUS 10. Are the figures added during the second season of dancing thru a workshop program that will make them comfortable at the Main Stream Level... The Additional 15 or PLUS 25 Program is what we call our Experienced or Advanced Intermediate program. This level is for our experienced and proven dancers who desire the little additional that keeps them interested.. Mixed with selected W/S basics the Plus 25 is a mixture or Standard here for ever calls and the best of the popular new ideas.

ADVANCED EXPERIMENTAL WORKSHOP:

MIXOVATE--Gene Knutson.

We selected this ONE Motivate Variation because of the timing and ability to set up the basic Motivate ending which if we are doing Motivate at all seems to cause the least confusion.. Although the figure can start from any ocean wave set up I've determined the best place to start is from a DIXIE STYLE WAVE due to the following set ups that allow for easy Motivate recognition.....IF YOU ARE LOOKING FOR A MOTIVATE VARIATION THEN TRY THIS ONE, IT DOES DANCE WELL...

THE BASIC TEACH--All DANCERS MUST BE AQUAINTED WITH MOTIVATE AND DANCE IT WELL OR ELSE THIS IS WASTING TIME.....

SET UP: 1P-2P-- Dixie Style to a Wave...On the Call Mixovate the Centers of the wave BOYS will Cross Run and then Circulate 1/2.. The Girls, Ends, will Turn by the right 3/4.. This sets up the Motivate Position with the four in the center Star and each end with a right arm hold...Complete from here the basic Motivate action of the ends turn 1/2 while the Star turns 1/2.. Those in the wave with Left Hands will turn left 3/4 while the remaining dancers step to the ends of the forming waves..From the Dixie Style Start. The Star and Ending of the figure will be identical to the basic motivate position... Ending with the boys facing out and the girls in, in the parallel ocean waves....

DANCING EXAMPLES.

1P-2P--RIGHT & LEFT THRU--DIXIE STYLE TO A WAVE--
 MIXOVATE--BOYS RUN--
 RIGHT & LEFT THRU--FLUTTER WHEEL--
 SLIDE THRU--LEFT ALLE. Sd Box 1-4.

1P-2P--RIGHT & LEFT THRU--DIXIE STYLE TO A WAVE--
 BOYS TRADE--MIXOVATE--
 BOYS RUN--RIGHT & LEFT THRU--
 STAR THRU--DIVE THRU--PASS THRU--LEFT ALLE. Box 1-4

1 P-2P--RIGHT & LEFT THRU--DIXIE STYLE TO A WAVE
 GIRLS CIRCULATE--BOYS TRADE--
 MIXOVATE--BOYS RUN--=1P-2P Line..

You can use Mixovate from any ocean wave however from normal waves you end up in a left hand set up which would be pretty rough for most dancers...

DRIFT APART-- Lee Kopman

This figure is for Advanced Level dancers as the positioning is very acute. I've hesitated printing it earlier but believe that for the right group it is a good workshop figure..Best used from Ocean waves but rules of action allow it to be danced from two face lines also....

SET UP: BOX 1-4 OCEAN WAVES...ENDS, Boys, will split Circulate TWO positions. Caution the Boys to check exactly where they will end up... CENTERS, Girls, will react to the way they are facing..Girls facing OUT, will Cross run and then Circulate.. Girls Facing IN, will Circulate and then Cross Run...Ending in a Two face Line with boys in the Centers and girls on the ends... Examples on the Next Page...

This REMINDER THAT THIS IS OUR LAST ISSUE FOR 1974..I Sincerely Hope That
You have enjoyed our notes this past year and that you have received some useful
information toward your goal of providing the SQUARE DANCERS with the kind of
Dance and Workshop Program that will KEEP THEM HAVING A DANCING GOOD
TIME.... If you have not sent in your re-nwal form, it is in the Nov. issue
along with a questionare that will help me plan the goals for our 1975 Year...
Please take the time to express any opinions that you feel will help make our notes
even more helpful in "75" Thanks for making this a REALLY GREAT
YEAR.....

VIEWPOINT: During my recent travels I have noticed the use of RECYCLE and WALK and DODGE is apparent..The dancers are for the most part doing both calls and this is a good sign toward reaching the goals of Caller Lab regarding the standard usage of experimental figures.. I note however that some callers are presenting the figures in their own short cut methods. For example, I saw RECYCLE used as centers of the wave U turn back and then Wheel & Deel. This bothers me a bit as its not the way the figure is supposed to dance..Do You Pair Off when a Square Thru is called ???.. I note also a difference of opinion between my opinion of the dancer action and that of another note service..I DO NOT APPROVE OF THE METHOD THAT CALLS FOR THE GIRLS TO DROP RIGHT HANDS AND REACH OUT WITH HER LEFT HAND FOR THE MAN TO PULL HER ALONG INTO THE ACTION..MY REASONING IS THE MAN ALSO REACHES BACK TO TAKE THE LADIES LEFT HAND AND IN DOING SO HIS HAND CAN AND OFTEN DOES BRUSH ACROSS HER CHEST..This makes it an undesirable teach as it will cause some problems that are unnecessary....If the girls need a starting "push" I suggest that the man simply "push" with his right hand against the ladies right hand and the girls will easily roll and follow very smoothly.....

BASIC CHOREOGRAPHY

This month I would like to explore the basic PEEL OFF. The figure is not often used by many callers and perhaps a few ideas regarding smooth follow up calls will help to bring the figure to a better degree of dancer understanding...

THE BASIC PEEL OFF came to us from the completed double pass thru set up. CORRECTLY danced the figure calls for the LEAD COUPLE to Turn Away from each other in an about face action to end as the ends of a line facing in.. There PEELING action vacates the center allowing the TRAILING COUPLE to Step into the vacated position and also Turn away from each other in an about face action to end as the centers of the line facing in. The Turn Away Action or the PEELING Action is what makes the body flow of the figure lend itself to certain follow up calls..PEEL OFF is NOT A CENTERS IN AND U TURN BACK.... A u turn back calls for the dancers to face each other as the turn back and the Peeling action is the opposite but necessary to clear the center for the trailing couples to step forward and then do their peel away about face....

PEEL OFF FROM THE "Z" FORMATION.

The "Z" Formation is Set Up By Having The Ends Fold After A Swing Thru..
For Example, Box 1-4 Swing Thru..Girls Fold.....To Peel Off from this set up the
BOYS as leaders Peel away from the set as they make their About Face, and the GIRLS
as Trailers step forward into the spot vacated by the boy in front of her and then Peel
away in an About Face action. The Set is in a two face line with Boys as ends... The
PEEL Away Flow lend itself to Wheel & Deel, Bend The Line and Couples Circulate
Figures...

RECYCLE---FROM DIXIE STYLE OCEAN WAVES.

We would like to encourage you to expand your usage of RECYCLE to the Dixie
Style Wave.. The Left Hand Wave With the Girls on The Ends and The Boys in The
Center Ends in an Normal Box With Girls on The Boys Right and the Follow up calls
are quite easily followed. In your Teach, simply establish a normal Dixie Style Wave
and tell the Girls to Cross fold and the Boys to Turn and Follow The End girl and
"Roll" into position....

FERRIS WHEEL..Don Beck.

Don originally sent in this call under the name shuffle & wheel. The name was changed for the better as FERRIS WHEEL kind of describes the action of the figure.. The figure is the exact equivalent of a couples hinge & trade when done from the two face line but dances a little differently... From the Two Face Line the Couples Facing in do a 1/2 a Couples circulate and as they meet the girls hook and the centers then Wheel & Deel .. The Couples Facing Out Will Wheel in Behind Them to End in a Double Pass Thru Set Up....The Exact same position as if you had done a couples hinge & trade.. The figure is limited to a two face line set up which makes it less versatile than couples hinge & trade but none the less a comfortable figure that may have some dancer appeal...Easily taught and danced....

Box 1-4..DO SA DOE TO A WAVE..GIRLS TRADE..
GIRLS RUN..TAG THE LINE RIGHT..
COUPLES CIRCULATE..FERRIS WHEEL..
SUBSTITUTE..SQUARE THRU 3/4..
LEFT ALLE..

In the long run my guess is that couples hinge & trade will win out but Ferris Wheel just may have enough dancer appeal to really catch on....

SCOOT TO A DIAMOND..SUE WATSON.

If you are using the Diamond Figures at all then this figure may be useful... I feel the name may be a problem and the direction to Scoot Back once and 1/2 to a Diamond may be the best way to call it...Any way SCOOT TO A DIAMOND means that you will Scoot Back once and 1/2 and you will be in a Diamond set up.. Easily danced and directed and for you Diamond Fans it allows good flow into the next figure...

DANCING SCOOT TO A DIAMOND:

Box 1-4..CURLIQUE..SCOOT BACK..
SCOOT TO A DIAMOND..DIAMOND CIRCULATE..
GIRLS CAST OFF 3/4..WHEEL & DEEL..
LEFT ALLE... zero Box 1-4.

Scoot to a Diamond is a smooth "get into a diamond" figure but try calling Scoot Back once and one half to a diamond and my guess is all the dancers will be there...

FLIP TO A TWO FACE LINE.. Paul Nadeau.

49-74

Like scoot to a diamond FLIP TO A TWO FACE LINE may appeal to those of you who are using Flip Back..From the pulse poll of exp.ideas in Stan Burdicks magazine some are using Flip Back alot.. From the normal Parallel Waves Boys on the Ends and Girls in the center,The Boys actually Trade while the Girls roll out to follow the boys, when they meet the girls will turn by the right $1/4$. The Figure, as the name implies, will end in a Two Face Line... A nice action for dancers already involved with Flip Back..If you are not involved with Flip Back then I suggest you forget about this one...
