COLLECTION OF COUPLE DANCES - DR. ROGER KNAPP  
 INDEX: APRIL 1951 - APRIL 1959

Descriptions of dances are arranged alphabetically by title. If descriptions are short,  
 there may be two or three to a page, hence the second or third dances are cross-indexed  
 under the first dance on the page as "with" (w) . that dance.

Preceding each main title is a notation indicating i..?J. which  
 supplement it appeared from //0 (the original book collection) to #32 (the  
 April 1959 supplement); beside each dance title is listed .the year, the composer,  
 the state in which the composer lives and the type of dance.

The type of dance is abbreviated:-Po(polka)-Sch(schottische); 2-st(two-step) Wa (waltz);  
 Mix (m er); Ta (tango) ; Quad (quadrille) and 1-st (one-step).
